Similarly, the Chhahari Women Entrepreneur House offers a safe place where women facing difficult times can find shelter and the opportunity to create a new life for themselves and their families.

It was initiated by Women For Human Rights – Single Women Groups and works in close connection with it.

The Chhahari welcomes vulnerable women, providing them psychological counselling, legal support and medical cares, skill development trainings and employment opportunities.

Nowadays, it offers a wide range of services to the public, using all the profits to support its activities and help more women every day.
